"Il San Corrado di Noto, Sicily's transformed masseria in the heart of UNESCO World Heritage site Val di Noto"—Paul Ebeling

Il San Corrado di Noto is the 1st boutique resort of its kind in Val di Noto, Sicily's renowned UNESCO World Heritage destination. Once an ancient masseria owned by Prince Nicolaci, Il San Corrado di Noto has been thoughtfully converted into an idyllic, all-suite retreat, following a meticulous 3-yr transformation.

The resort fills the gap of a stylish, independently owned destination for the discerning traveller in this historic part of Sicily. Located just outside Noto, featuring 26 suites and eight pool villas, the new hotel offers an abundance of space and privacy, paired with exceptional service and destination expertise, promising an authentic and personalised experience of the area.

Surrounded by ancient citrus and olive groves, carefully protected during the property's restoration, Il San Corrado di Noto is defined by its serene locale, discreet service and focus on heritage and wellbeing. The resort has 2 swimming pools, including an expansive 100m long heated pool as well as spa, fitness suite and tennis court.

The resort also operates a private beach club in the Summer months which is located a short drive from the property, accessible via a complimentary shuttle service.

Each spacious suite is complete with an outdoor patio, while the 1 and 2-bedroom pool villas offer flexible accommodation options for couples, friends, and families. Il San Corrado di Noto is home to Casa Pasta and Principe di Belludia, an upscale dining destination that showcases the region's peerless seasonal produce.

Il San Corrado Di Noto is a celebration of Sicilian spirit and tradition in an exceptional destination.

Enjoy your travels, the chaos is over, Keep the Faith!
