

Introducing Il San Corrado di Noto, Sicily

31 JANUARY 2022 | IN PROJECTS | BY BEN THOMAS

Launching in April 2022 for its debut season, Il San Corrado di Noto is the first boutique resort of its kind in Val di Noto, Sicily's UNESCO World Heritage destination. Once an ancient masseria owned by Prince Nicolaci, the property has been thoughtfully converted into an all-suite retreat following a three-year transformation.

Located just outside Noto, the development comprises 26 suites and eight pool villas, each of which is complete with an outdoor patio, while the one- and two-bedroom pool villas offer flexible accommodation options for couples, friends and families. Il San Corrado di Noto is also home to two signature restaurants, Casa Pasta and Principe di Belludia, an upscale destination that showcases the region's seasonal produce.

The masseria's 18th-century architecture and features were sensitively preserved during the restoration. Maintaining harmony between traditional and modern approaches, architect Corrado Papa has drawn upon natural materials, including Modica stone and Guatemalan marble, which have been sculpted by local stonemasons and woodworkers to highlight the suites, public areas and a chapel dating back to 1836.

Surrounded by ancient citrus and olive groves, Il San Corrado di Noto is defined by its serene locale, discreet service and focus on heritage and wellbeing. The resort is home to two swimming pools, including a 100-metre-long heated pool – one of Sicily's largest, as well as spa, fitness suite and tennis court. It also operates a private beach club in the summer months, located a short drive away and accessed via a free shuttle service.

A highlight of south-eastern Sicily, Val di Noto is a UNESCO World Heritage Site and home to eight historic towns, all built in the Baroque style. Il San Corrado Di Noto offers guests a base from which to explore this lesser-known region and discover its rich history – dating from 664 BC – gastronomy, culture and beaches.
